INTRODUCTION

The Board of Education of the Rye Neck Union Free School District (the “District”), in public session at its meeting of August 29, 2011, adopts this Annual Professional Performance Plan (the “APPR Plan” or “Plan Document”) for the 2011-2012 school year through June 30, 2012 pursuant to the requirements of New York State Education Law §3012-c and accompanying regulations of the Board of Regents and the Commissioner of Education.

The Superintendent of Schools and Board of Education are committed to a thoughtful and careful APPR process and part of this Plan Document that must be developed through appropriate collaboration and negotiations will not be complete as of the APPR Plan adoption date. Accordingly, the Plan Document shall be modified from time to time as these elements are modified.

Annual Professional Performance Review (“APPR”) supports the professional growth of our educators. A successful review system should provide timely feedback, an opportunity to acknowledge educators’ strengths as well as their weaknesses and an opportunity for growth as an educator.

This APPR system will be a significant factor in all employment decisions¹ including but not limited to:

- Retention
- Tenure Determination
- Termination
- Supplemental compensation
- Promotion
- Professional Development
- Coaching

Education Law §3012-c establishes new requirements for a comprehensive performance evaluation system for classroom teachers and building principals to be phased in commencing with the 2011-2012 school year. In the 2011-2012 school year, the law only applies to classroom teachers of the common branch subjects, English Language Arts (ELA) and Mathematics in Grades 4-8 and the building principals of schools in which such teachers are employed. The APPR for all other teachers and principals will remain unchanged during the 2011-2012 school year. Those teachers and principals will be covered by the new system in the 2012-2013 school year.

The District will work with all available resources to assist in designing and implementing these new systems. Any items required to be included in the APPR Plan but not yet finalized due to collective negotiations are specifically identified.

¹ Procedure to be negotiated.

PART I
TRAINING OF EVALUATORS

The District will ensure that all Lead Evaluators/Evaluators are properly trained and certified to complete an individual's performance review. Evaluator training will be conducted by appropriately qualified individuals or entities. Evaluator training will replicate the recommended New York State Education Department ("NYSED") model certification process.

The District will ensure that all evaluators are trained as lead evaluators. The Superintendent will certify lead evaluators upon receipt of proper documentation that the individual has fully completed training. The Superintendent will maintain records of certification of evaluators.

Evaluator training will occur regionally in cooperation with Southern Westchester BOCES. Training will be conducted by Southern Westchester BOCES Network Team personnel and/or other network team personnel who have participated in the NYSED evaluator training for Network Teams and/or personnel authorized to train on behalf of an evaluation rubric approved by the NYSED. Evaluators will be recertified on a periodic basis, to be determined by the District.

The District will establish a process to maintain inter-rater reliability over time in accordance with NYSED guidance and protocols recommended in training for lead evaluators. The District anticipates that these protocols will include measures such as: data analysis; periodic comparisons of assessments; and/or annual calibration sessions across evaluators.

This training will include the following Requirements for Lead Evaluators/Evaluators:

- New York State Teaching Standards and ISSLC Standards
- Evidence-based observation
- Application and use of Student Growth Percentile and Value Added Growth Model data
- Application and use of the State-approved teacher or principal rubrics
- Application and use of any assessment tools used to evaluate teachers and principals
- Application and use of State-approved locally selected measures of student achievement
- Use of Statewide instructional Reporting System
- Scoring methodology used to evaluate teachers and principals
- Specific considerations in evaluating teachers and principals of ELLS and students with disabilities.

Lead Evaluator

The Superintendent and his/her designees will be trained and certified as lead evaluators according to the NYSED's model to ensure consistency and defensibility.

Responsibilities

Lead Evaluators will train and certify other evaluators in the District based on the same model.

Timing

For the 2011-2012 school year all lead evaluators shall be appropriately trained and certified. For the 2011-2012 school year all other evaluators shall be appropriately trained and certified. For the 2012-2013 school year and thereafter, all lead evaluators and other evaluators shall be appropriately trained and certified each school year or thirty (30) days after appointment.

Re-Certification and Updated Training

The District will work to ensure that lead evaluators maintain inter-rater reliability over time and that they are re-certified on an annual basis and receive updated training on any changes in the law, regulations or applicable collective bargaining agreements.

PART II **DATA MANAGEMENT**

The District will work with the NYSED to develop a process that aligns its data systems to ensure that the NYSED receives timely and accurate teacher, course and student “linkage” data, as well as a process for teacher and principal verification of the courses and/or student rosters assigned to them.

Ensuring Accurate Teacher and Student Data

The District shall ensure that the NYSED receives accurate teacher and student data, including enrollment and attendance data and any other student, teacher, school, course and teacher/student linkage data necessary to comply with the Regulations of the Board of Regents and Commissioner of Education by providing such data in a format and timeline prescribed by the Commissioner.

The District’s student data system records now identify teacher assignments and student enrollment and attendance. The District will verify assignments of classroom teachers of common branch subjects, ELA and Mathematics Grades 4-8 (described below). The NYSED *APPR Guidance* provides the following guidance when reporting data for the 2011-2012 school year relating to Teacher of Record:

“For courses included in the 2011-12 school year collection (grades 3-8 ELA and mathematics, grade 4/8 science, and secondary-level courses associated with a Regents exam), the Teachers of Record are those teachers who are primarily and directly responsible for a student’s learning activities that are aligned to the performance measures of the course consistent with guidelines prescribed by the Commissioner.”
(*APPR Guidance, L5*)

The District collects data on student enrollment, attendance, and achievement on Statewide assessments utilizing the Chancery student management system (SMS). The Information System Manager is directly responsible for maintaining the SMS and transferring data to and from the Lower Hudson Regional Information Center (LHRIC) and NYSED Data Warehouse systems (SIRS) including, but not limited to, file formatting, data collection, import/exports of data, meeting timelines and regulations as outlined by both the LHRIC and the NYSED.

The NYSED’s *APPR Guidance* and field memos relating to the Student Information Repository System (SIRS) will provide detailed guidance related to the collection and reporting of data, including student-teacher linkage and student attendance. The District will continue to monitor data and develop additional processes, as needed and consistent with NYSED reporting requirements, to verify that the data submitted to the State are complete and accurate. The NYSED advises that it will provide roster verification reports to assist in this process (see *APPR Guidance, L4*). The NYSED also will provide guidelines for the use of student-teacher instructional weighting and student exclusion flags (see *APPR Guidance, L8*).

Verification: The District's student data system identifies teacher assignments and student enrollment and attendance. The District has obtained the NYSED statewide unique identifier for certain certified individuals employed by the District through "TEACH". This information has or will be entered into the District's data system and will be extracted from the District's system and reported to SIRS in accordance with NYSED guidance. The District will verify assignments of classroom teachers of common branch subjects, ELA and Mathematics Grades 4-8 through quarterly grade report verifications by both teachers and administrators.

Reporting Individual Subcomponent Scores: The District will report to the NYSED the individual subcomponent scores and the total composite effectiveness score for each classroom teacher and building principal in the District in a format and timeline prescribed by the Commissioner. The District will develop a process for timely and accurate extraction of such data and will use SIRS data reporting extracts protocols for reporting these data to NYSED. Total Composite Effectiveness Scores will not be reported until data on student achievement on state assessments is transmitted to the District.

Development, Security and Scoring of Assessments: The District shall ensure the development, security and scoring processes of all assessments and/or measures used to evaluate teachers and principals under this section are not disseminated to students before administration and that teachers and principals do not have a vested interest in the outcome of the assessments they score.

Development: The District will work with the Curriculum Advisory Council, Professional Development Committee, administrators and local Associations to determine decisions about local measures of student achievement; teacher and principal practice rubrics; any other instruments (such as surveys, self-assessments, portfolios); and the scoring methodology for the assignment of points to locally selected measures of student achievement and other measures of teacher or principal effectiveness.

Security: The District will secure all assessments at the building level consistent with NYSED guidelines prior to, during, and after administration of all required NYSED assessments to ensure that these assessments are not disseminated to students before administration. In addition, both testing and scoring protocols will be consistently adhered to ensure that teachers or principals do not have a vested interest in the outcome of the assessments they score. Assessment proctors will have access to test administration protocols prior to test administration as prescribed by NYSED, without compromising the security or integrity of the assessment.

Arrival of Materials: When the test materials arrive at the building, the building testing coordinator and principal carefully check, count and inventory the testing materials to ensure that the proper number of tests have been received. The contents of each box are checked against the shipping notice and the school's copy of the order form. All shrink-wrapped materials remain intact until the day of testing. All test materials are stored in a locked safe or vault.

Prior to Testing: Prior to the administration time period, a review of the test administration procedures is conducted with all faculty and staff that will be involved in the test administration and scoring. Classrooms are prepared for testing as described in the NYS Testing

Administrator's Manual. Alternate locations and additional proctors are organized for students who require testing accommodations.

On the Day of the Testing: Thirty minutes prior to the testing administration time, the teachers and proctors pick up, count and sign out the test materials. Tests are administered in a time frame consistent with State and local requirements, to ensure test security and so that students can do their best. A class roster is completed on the day of testing to account for students who are absent and require a make-up test. When tests are complete, all testing materials are collected and counted by the classroom teacher. Completed testing materials are recounted, bound appropriately and kept in a secure location.

Once All Testing is Complete: Once the testing administration period is completed, all tests are securely inventoried and packed by the building administrator. Make-up sessions are conducted within the allotted time frame, and tests are kept in a secured, locked location. Once all testing is complete, the test boxes are sealed, returned to the district office for scoring if appropriate, and then properly organized for the return to the testing center.

Scoring: The District will ensure that all assessments are scored in the manner as prescribed by the assessment. Teachers or principals will not have a vested interest in the outcome of assessments they score.
